Maricopa County Water Reuse Stakeholder Meeting

October 26, 2010

What: Maricopa County Environmental Service Department's (MCESD) stakeholders workshop dealing with our reclaimed water program.

When: Wednesday November 3, 2010 from 1:00 until 4:00 PM.

Where: 1001 N Central Ave., Suite 560 (5th floor Classroom), Phoenix, AZ 85004. Glass building on the northeast corner of Central and Roosevelt (the street halfway between Van Buren and McDowell). There is a parking garage structure directly to the east of the building. There is some visitor parking as you enter the structure from the alley and there is additional visitor parking on the roof.

Who: Stakeholders and public in general.

Why: MCESD would like to move forward with the stakeholder process and have scheduled this session to cover the plan review requirements for new and modified reclaimed on-site water reuse systems.

As a first step, a kickoff meeting was held on October 7 to give an overview of the program as it is currently structured.

If you would like a copy of the PowerPoint presentation on the permitting process that was given at the kickoff meeting by Mr. Dale Bodiya, Manager of the Department's Water and Wastewater Treatment Program, please contact Senior Engineer Dale Lieb (below) with MCESD's Water & Waste Management division.

For the reclaimed water providers, if you have requirements that you use with your reclaimed water users such as signage, cross connection testing requirements, etc., please bring a copy of your requirements to the meeting. We believe that it would be useful in a number of ways to be able to construct a comparison chart for use at later meetings.

PLEASE, RSVP if you plan to attend so that we can be sure that our meeting room can accommodate everyone. For reservations and/or further questions, please contact Senior Engineer Dale Lieb at:
